

## BLISTER LIDDING

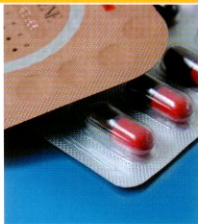

### Blister push-through and peelable lidding

Packages made with materials from Alcan Packaging provide the peace of mind that they will meet all the requirements set for blister packs and optimal product protection for pharmaceutical applications.

A close cooperation between Alcan Packaging, the pharmaceutical industry and machine manufacturers has allowed Alcan Packaging to stay ahead of the increasing demands set by the industry.

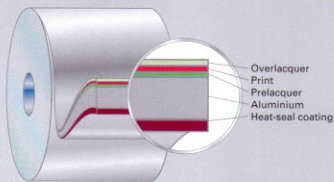

Alcan Packaging continuously improves its blister lidding offering to meet the challenges of higher product demands and quality expectations of the pharmaceutical industry.

As market leader, our Research and Development teams offer tailored solutions for new therapies and new processes for your special applications.

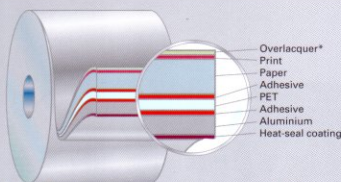

# BLISTER LIDDING

## Blister push-through and peelable lidding

Push-through lidding foil

Peelable lidding

\* optional

### Properties of push-through lidding foil

- Push through foil in gauges 15 – 30µm, hard or soft tempered
- Heat sealable to PVC; PVDC; PP; PET; PE
- For in-line printing, or can be delivered pre-printed (random; with eye marks)
- High heat resistant overlucquer on the outside
- Coloured lacquer on both sides
- Two-sided print for calendar packs, compliance packages or for marketing physician samples
- Can be processed on all conventional blister lines

### Properties of peelable lidding

- Peelable opening in gauges 20 and 25 µm soft, laminated with paper; PET; paper/PET
- Heat sealable to PVC; PVDC; PP; PET; PE
- For in-line printing or pre-printed (random; with eye marks)
- Can be processed on all conventional blister lines

### Applications

- Tablets, caplets, gel-caps
- Powders
- Diagnostics

Peelable lidding: Allows easy access to the product by simply peeling away the lid.

Child-resistant (CR): The combination of the appropriate blister bottom, lidding material and package design can produce a package that meets the European CR/SF and test positively under the guidance of the US Code of Federal Regulations.

Regulatory compliance: All our blister lidding structures comply with the requirements of the European Pharmacopoeia and the relevant US Code of Federal regulations.

Pharma Center: Blister lidding foil is produced at our Pharma Centers under strict hygienic conditions.
